## PRELIMINARY AMENDMENT A

Sir:

Please amend the above-identified application as follows:

## In the Specification:

Please replace the paragraph beginning at page 3, line 16, with the following paragraph:

--According to one aspect of the present invention there is provided a carrier comprising an elongate strip having a first portion and a second portion; a fold between said first portion and said second portion such that the first portion contacts the second portion; and a join between the first portion and the second portion, wherein said join and the fold form the edges of a pocket or pouch for containment of medicament, the pocket or pouch containing a unit dose of medicament therein.

Please replace the paragraph beginning at page 3, line 27, with the following paragraph:

--In another aspect, there is provided a carrier additionally comprising a retainer within the pocket or pouch for retaining medicament thereon. The retainer is for example, a mesh or sponge.--

Please replace the paragraph beginning at page 4, line 10, with the following paragraph:
